

# ARCANDIS-Splend

## Acid rinse aid

- ▲ Highly concentrated, acid rinse aid for commercial dishwashers
- ▲ Fast, streak-free and mark-free drying
- ▲ High quality drying process even for fluctuating water hardness levels
- ▲ Low-foaming, thus produces little foam even in large concentrations
- ▲ For spotless dishes with shine

### Area of application

For all types of acid-resistant items made of porcelain, glass, stainless steel and plastic.

### Application

When replacing the product, the dosage device and attached tubes must be thoroughly rinsed with water.

#### Mechanical dish washing:

Recommended dosage for dishwashers	
Hardness level 1 ( $< 1.5$ mmol/L)	0.2 g/L of water
Hardness level 2 (1.5–2.5 mmol/L)	0.35 g/L of water
Hardness level 3 ( $> 2.5$ mmol/L)	0.35 g/L of water

Dosage takes place using the machine's integrated dosage mechanism or with the programmable KIEHL dosage devices. In order to achieve the best possible drying result, the dosage is set by a KIEHL service technician based on specific conditions (water hardness, level of soiling, type of machine). See table for dosage. Consumption: no indication possible. Consumption depends on the specific conditions and specifications.

Ensure an optimum cleaning result by combining with ARCANDIS-eco. In the case of under-counter dishwashers, pour the product into the dosage chamber provided. Set rinse aid dosage to level 1 or 2.

#### Note

Kiehl accepts no liability or responsibility for damage caused as a result of incorrect use or application of the product. Not a consumer product according to 1999/44/EC Art. 1! For professional use only! By dosing correctly and using the lowest recommended temperature, you can help to reduce water pollution and to save energy and water. You can find information about your local water hardness level from your local water supplier. Packaging material is recyclable.

#### Ingredients (according to 648/2004/EC)

Nonionic surfactants 5–15%, organic acids, solubilizers, food-dye.  
pH value (concentrate): approx. 2.5

pH value (ready-to-use solution): approx. 7

#### Classification

Classification (in concentrate): GHS07, Warning. H319 Causes serious eye irritation. P280 Wear eye protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
